Test Cases

Installation   3

C1: Installing the application on an Android device using a PC

Type	Priority	Estimate	References
Compatibility	High	None	None
Automation Type			
None			

Preconditions

OS: Android 5 or higher, Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) Android device and PC are linked to the same Google Account

2) Sign in to Google Account in the Google Chrome browser on a PC

Steps

1	Click the following link: Meetmeinthe.bar	The welcome page of the Go2Meet web application is open
2	Click the 'GET IT ON Google Play' button	The 'Go2Meet' page is open on Google Play
3	Click the 'Install on more devices' button	A window with available devices pops up
4	Select the device which is used for the test case implementation	Toggle button disappeared
5	Click the 'INSTALL' button	The account verification page is open
6	Follow the instructions provided by Google service	A window with the 'Go2Meet will be installed on your device soon.' message is displayed
7	Check the folder with the latest downloads on the Android device	The Go2Meet application is installed
8	Open the Go2Meet application on the Android device	The login page is open

C2: Installing the application on an Android device via Google Play

Type	Priority	Estimate	References
Compatibility	High	None	None
Automation Type			
None			

Preconditions

Environment: Android 5 or higher

Steps

1	Tap the following link: Go2Meet	The 'Go2Meet' page is open on Google Play
2	Tap the 'Install' button	The application installs
3	Wait for the application to install and tap the 'Open' button	The login page of the application is open

C3: Installing the application on an IOS device via the App Store

Type	Priority	Estimate	References
Compatibility	High	None	None
Automation Type			
None			

Preconditions

Environment: IOS 10 or higher

Steps

1	Tap the following link: Go2Meet	The 'Go2Meet' page is open on the App Store
2	Tap the 'Install' button	The application installs
3	Wait for the application to install and tap the 'Open' button	The login page of the application is open

Registration 41

C4: Registration with all inputs filled in

Type	Priority	Estimate	References
Functional	High	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) An example of valid data for the inputs in the registration forms: https://is.gd/bY8MIZ

2) The registration page is open

3) A user is not registered

4) A photo is downloaded

Steps

1	Fill in all fields with valid data and click the empty space under the 'Password' field	Error messages are not displayed under registration fields
2	Select the 'I agree with Terms & Conditions' checkbox	The 'Register' button is active
3	Click the 'Registration' button	The 'My name and bio' form is open
4	Fill in all fields with valid data	The 'Next' button is active
5	Click the 'Next' button	The 'I'm here for' form is open
6	Select all checkboxes	All checkboxes are filled with checkmarks
7	Click the 'Next' button	The 'Interests' form is open
8	Select any five options	Selected options are highlighted with a light orange color
9	Click the 'Next' button	The 'Professional information' form is open
10	Fill in all fields with valid data	Error messages are not displayed
11	Click the 'Next' button	The 'Social media' form is open
12	Fill in all fields with valid data	Error messages are not displayed
13	Click the 'Next' button	The 'Add a photo' form is open
14	Click the 'Upload' caption	The window with computer files is open
15	Find the downloaded photo and click the 'Open' button	The photo is uploaded

| 16 | Click the 'Next' button | A user's home page is open and the 'Email not verified. Confirm the creation of the account in the e-mail' message is displayed |

C7: Verify that the 'email confirm' request is sent to the user's email after registration

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) An example of valid data for the inputs in the registration forms: https://is.gd/bY8MIZ

2) A user is not registered

3) First six forms of the Go2Meet registration are completed

4) The 'Add a photo' form is open

Steps

1	Click the 'Next' button	A user's home page is open and the 'Email not verified. Confirm the creation of the account in the e-mail' message is displayed
2	Check the email account user was registered through	The 'email confirm' request was sent from the Go2Meet application to the user's email

C8: Verify that the user can confirm an email with the 'email confirm' request

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) An example of valid data for the inputs in the registration forms: https://is.gd/bY8MIZ

2) A user was registered in the Go2Meet application

3) The 'email confirm' request was sent to the user's email account

4) The letter with the 'email confirm' request is open

Steps

Click the 'Confirm my email' button

Expected Result

The page with the 'Your email has been successfully verified!' message is open

C5: Verify that the user can't register with an email that already exists in a database

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) An example of valid data for the inputs in the registration forms: https://is.gd/bY8MIZ

2) The registration page is open

3) The email that exists in a database

4) The 'Password' and 'Confirm passwords' fields are filled with valid data

5) The 'I agree with Terms & Conditions' checkbox is selected

---

Steps

1) Fill in the 'Email' field with an email that exists in a database

2) Click the 'Registration' button

Expected Result

A user is not allowed to proceed with the next registration steps and the message 'Email already exists' appears under the 'Email' field

C9: Verify that the user can't register with the empty mandatory fields

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

The registration page is open

Steps

1	Click the 'Registration' button	A user is not allowed to proceed with the next registration steps and the error messages are displayed under the registration fields

C10: Verify that the user can't register with a blank 'Email' field

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) An example of valid data for the inputs in the registration forms: https://is.gd/bY8MIZ

2) The registration page is open

3) The 'Password' and 'Confirm password' fields are filled with valid data

4) The 'I agree with Terms & Conditions' checkbox is selected

Steps

Click the 'Registration' button

Expected Result

A user is not allowed to proceed with the next registration steps and the 'This field must not be empty' message is displayed under the 'Email' field

C11: Verify that the user can't register with a domainless email

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) An example of valid data for the inputs in the registration forms: https://is.gd/bY8MIZ

2) The registration page is open

3) The 'Password' and 'Confirm password' fields are filled with valid data

4) The 'I agree with Terms & Conditions' checkbox is selected

Steps

1) Fill in the 'Email' field with the following data: stephano@

2) Click the 'Registration' button

Expected Result

A user is not allowed to proceed with the next registration steps and the 'This field is invalid' message is displayed under the 'Email' field

C12: Verify that the user can't register with an email that doesn't contain the '@' symbol

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) An example of valid data for the inputs in the registration forms: https://is.gd/bY8MIZ

2) The registration page is open

3) The 'Password' and 'Confirm password' fields are filled with valid data

4) The 'I agree with Terms & Conditions' checkbox is selected

Steps

1) Fill in the 'Email' field with the following data: stephano1gmail.com

2) Click the 'Registration' button

Expected Result

A user is not allowed to proceed with the next registration steps and the 'This field is invalid' message is displayed under the 'Email' field

C6: Verify that the user can't register with mismatching data in the 'Password' and 'Confirm password' fields

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) The registration page is open

2) The 'Email' field filled in with the following data: alessandro@yahoo.com

3) The 'I agree with Terms & Conditions' checkbox is selected

Steps

1) Fill in the 'Password' field with the following data: qwerty

2) Fill in the 'Confirm password' field with the following data: qwerty1

3) Click the 'Registration' button

Expected Result

The user is not allowed to proceed with the next registration steps and the 'Passwords do not match' message appears under the 'Confirm password' field

C13: Verify that the user can't register with the shorter than required password

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) The registration page is open

2) The 'Email' field is filled with the following data: stephano1@gmail.com

3) The 'I agree with Terms & Conditions' checkbox is selected

Steps

1) Fill in the 'Password' field with the following data: qqqqq

2) Fill in the 'Confirm password' field with the following data: qqqqq

3) Click the 'Registration' button

Expected Result

A user is not allowed to proceed with the next registration steps and the 'This field must be at least 6 characters long' messages are displayed under the 'Password' and 'Confirm password' fields

C14: Verify that the user can't register with the longer than allowed password

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) The registration page is open

2) The 'Email' field is filled with the following data: stephano1@gmail.com

3) The 'I agree with Terms & Conditions' checkbox is selected

Steps

1) Fill in the 'Password' field with 256 symbols

2) Fill in the 'Confirm password' field with 256 symbols

3) Click the 'Registration' button

Expected Result

A user is not allowed to proceed with the next registration steps and the 'This field must be less than ${max} character long' messages are displayed under the 'Password' and 'Confirm password' fields

C16: Verify that the content of the 'Password' field can be displayed

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

The registration page is open

Steps

1) Fill in the 'Password' field with the following data: '111111'

2) Click the 'eye' icon in the 'Password' field

Expected Result

The content of the 'Password' field is displayed

C17: Verify that the content of the 'Password' field can be hidden back

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) The registration page is open

2) The 'Password' field is filled in with the following data: '111111'

3) The content of the 'Password' field is displayed

Steps

Click the 'eye' icon in the 'Password' field

Expected Result

The content of the 'Password' field is hidden

C18: Verify that the content of the 'Confirm password' field can be displayed

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

The registration page is open

Steps

1) Fill in the 'Confirm password' field with the following data: '111111'

2) Click the 'eye' icon in the 'Password' field

Expected Result

The content of the 'Confirm password' field is displayed

C19: Verify that the content of the 'Confirm password' field can be hidden back

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) The registration page is open

2) The 'Confirm password' field is filled with the following data: '111111'

3) The content of the 'Confirm password' field is displayed

Steps

Click the 'eye' icon in the 'Confirm password' field

Expected Result

The content of the 'Confirm password' field is hidden

C15: Verify that the user can't register without consent to terms and conditions

Type	Priority	Estimate	References
Other	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) An example of valid data for the inputs in the registration forms: https://is.gd/bY8MIZ

2) The registration page is open

3) The 'Email', 'Password', and 'Confirm password' fields are filled with valid data

Steps

Click the 'Registration' button

Expected Result

A user is not allowed to proceed with the next registration steps and the 'You have to accept privacy terms' message is displayed under the 'I agree withTerms&Conditions' checkbox.

C26: Verify that the 'Terms & Conditions' section contains the information corresponding to the requirements

Type	Priority	Estimate	References
Other	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) The requirements for the 'Terms & Conditions' section: (the link must be here)

2) The registration page is open

Steps

1) Click the 'I agree with Terms & Conditions' caption

2) Check the content

Expected Result

The content conforms with the requirements

C20: Verify that the user can't register with the empty mandatory fields of the 'My name and bio' form

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher

C75: Verify that the user can delete the participant from the hangout

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) A user is registered in the Go2Meet application

2) A user's email is verified

3) A user created one hangout

4) A user accepted another user's request for joining the hangout

5) A user is logged in

6) The hangout information page is open

Steps

1	Click the 'Edit' button	An editing page is open
2	Scroll down the 'Edit a hangout' form	Another user name is visible
3	Click the 'delete' icon to the right of another user name	The window 'Are you sure want to remove this member?' is displayed
4	Click the 'Remove' caption	Another user name disappeared from the 'Participants' section
5	Scroll down the form which is under the map	The 'Save' button is visible
6	Click the 'Save' button	The 'All hangouts' section is open
7	Click the 'My hangouts' caption	A user's hangout is displayed
8	Click the hangout name	A page with the hangout information is open
9	Check the 'Participant' section	The hangout organizer is the only participant

C76: Verify that the user can leave a hangout of another user

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) A user is registered in the Go2Meet application

2) A user's email is verified

3) A user participates in one hangout

4) A user is logged in

5) A page with information about the hangout the user participates in is open

Steps

1	Click the 'Leave' button	The 'Are you sure want to leave from this hangout?' window is displayed
2	Click the 'Leave' caption	The 'All hangouts' page is open
3	Click the 'My hangouts' caption	The 'My hangouts' section is open
4	Check the section content	The user doesn't participate in the hangouts of other users

C77: Verify that the user can't send a request for joining a hangout with no available spots

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) A user is registered in the Go2Meet application

2) A user's email is verified

3) A user is logged in

4) Another user has the 'Partyheads' hangout without available spots

Steps

1	Fill in the search field with the following data: Partyheads	The 'Partyheads' hangout with the 'The hangout is full' mark is displayed
2	Click the name of the hangout	The page with the hangout information is open
3	Scroll down the hangout information page	The 'Join hangout' button is absent

Restaurants 2

C78: Verify that the restaurant's data is automatically entered into the 'Location' input when booking it from the 'Restaurant' page

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) A user is registered in the Go2Meet application

2) A user's email is verified

3) A user is logged in

4) The 'Restaurant' page is open

5) There is a restaurant with free places

Steps

1	Click the name of the restaurant with free places	The restaurant information is displayed
2	Click the 'Book' button	The 'Create a hangout' page is open
3	Check the location input	The address of the restaurant is in the search field and the restaurant location is marked on the map

C79: Verify that the restaurant can't be booked outside the opening hours

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) A user is registered in the Go2Meet application

2) A user's email is verified

3) A user is logged in

4) A user requested to book a restaurant that is open from 10:00 to 21:00 every day

5) The 'Create a hangout' page is open

6) An example of valid data for the 'Create a hangout' page inputs: https://is.gd/35v6qN

7) The 'from' and 'to' fields are empty

8) Other inputs are filled in with valid data

Steps

1	Scroll down the form which is under the map	The 'Save' button is visible
2	Fill in the 'from' field with the following data: 22:01, and click the 'to' field	An error message is not displayed under the 'from' field
3	Fill in the 'to' field with the following data: 23:59, and click the 'Save' button	The 'Save button' is not clickable and the tooltip about the impossibility to book a restaurant outside working hours appears

Chats   10

C80: Verify that the hangout chat is created automatically after the creation of the hangout

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) A user is registered in the Go2Meet application

2) A user's email is verified

3) A user is logged in

4) The 'Create a hangout' page is open

5) An example of valid data for the 'Create a hangout' page inputs: https://is.gd/35v6qN

6) All inputs are filled in with valid data

Steps

1	Scroll down the form which is under the map	The 'Save' button is visible
2	Click the 'Save' button	The 'Your hangout successfully created' window is displayed
3	Click the 'OK' button	The window is closed
4	Click the 'Chats' icon	The 'Chats' page is open
5	Check the page	There is a chat with the name of the hangout that was just created

C81: Verify that the accepted to the hangout user is added to the hangout chat automatically

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) A user is registered in the Go2Meet application

2) A user's email is verified

3) A user is logged in

4) A user requested for joining a hangout of another user

5) The 'Chats' page is open

Steps

Another user accepts the user's request for joining the hangout

Expected Result

The chat with the name of the hangout the user requested to join appears on the 'Chats' page

C82: Verify that the messages can be sent in the hangout chats

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) A user is registered in the Go2Meet application

2) A user's email is verified

3) A user created one hangout

4) A user is logged in

5) A user's hangout chat is open

Steps

1) Fill in the message entry field with the following data: Hello

2) Click the 'Send' icon

Expected Result

The 'Hello' message appears in the chat history

C83: Verify that the hangout participants can see each other messages in the hangout chat

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) A user is registered in the Go2Meet application

2) A user's email is verified

3) A user is logged in

4) A user created one hangout

5) A user accepted another user to the hangout

6) The user's hangout chat is open

7) The hangout chat history is empty

Steps

Another user sends a message in the hangout chat

Expected Result

The user sees a message from another user

C84: Verify that the user can reply to the other hangout members' messages

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) A user is registered in the Go2Meet application

2) A user's email is verified

3) A user is logged in

4) A user created one hangout

5) A user accepted another user to the hangout

6) The user's hangout chat is open

7) The hangout chat history contains one message from another user

Steps

1	Right mouse click the message from another user	A list with options is displayed
2	Click the 'Reply' option	The message from another user is displayed over the message entry field
3	Fill in the message entry field with the following data: Hello, and press Enter	The 'Hello' message appears as a reply to another user message in the chat history

C85: Verify that the message can be pinned in the hangout chat

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) A user is registered in the Go2Meet application

2) A user's email is verified

3) A user is logged in

4) A user created one hangout

5) The user's hangout chat is open

6) The hangout chat history contains one message with the following data: Hello

Steps

1	Right-mouse-click the 'Hello' message	A list with options is displayed
2	Click the 'Pin' option	The 'Hello' message is pinned under the header area of the chat

C86: Verify that the hangout chat message can be edited

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) A user is registered in the Go2Meet application

2) A user's email is verified

3) A user is logged in

4) A user created one hangout

5) The user's hangout chat is open

6) The hangout chat history contains one message with the following data: Hello

Steps

1	Right-mouse-click the 'Hello' message	A list with options is displayed
2	Click the 'Edit' option	The message entry field is filled in with the 'Hello'
3	Remove the letter 'H' from the 'Hello' and press Enter	The 'Hello' message was edited to the 'ello' one

C87: Verify that the hangout chat message can be deleted only for the sender

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) A user is registered in the Go2Meet application

2) A user's email is verified

3) A user is logged in

4) A user created one hangout

5) A user accepted another user to the hangout

6) The user's hangout chat is open

7) The hangout chat history contains one message from another user

Steps

Another user deletes a message by selecting the 'Delete for me' option

Expected Result

The user sees a message from another user in the chat history

C88: Verify that the hangout chat message can be deleted only for all participants

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) A user is registered in the Go2Meet application

2) A user's email is verified

3) A user is logged in

4) A user created one hangout

5) There are available spots in the hangout

6) The 'Notifications' page is open

Steps

Another user leaves the user's hangout

Expected Result

The notification that another user left the hangout appears

Hangout search　　　8

C94: Verify that the results of the search by the hangout name match the query

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) The Go2Meet home page is open

2) The 'Monday party' hangout was created

Steps

Fill in the search field with the following data: Monday party

Expected Result

The hangouts only with the name 'Monday party' are shown

C95: Verify that the results of the search by the 'Type of hangout' filter match the query

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) The Go2Meet home page is open

2) There are two hangouts of the 'Party' type

Steps

1	Click the 'filter' icon	The filter is open
2	Select the 'Party' option in the 'Type of hangout' section	The 'Party' option is highlighted with an orange color
3	Scroll down the 'Filter' form and click the 'Show results' button	Two hangouts are shown
4	Check each hangout	Each hangout is of the 'Party' type

C96: Verify that the results of the search by the 'What is this hangout about' filter match the query

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) The Go2Meet home page is open

2) There is one hangout with 'Marketing' as the main topic

Steps

1	Click the 'filter' icon	The filter is open
2	Select the 'Marketing' option in the 'What is this hangout about' section	The 'Marketing' option is highlighted with an orange color
3	Scroll down the 'Filter' form and click the 'Show results' button	One hangout is shown
4	Check the hangout	The hangout is about marketing

C97: Verify that the results of the search by the 'Date range' filter match the query

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) The Go2Meet home page is open

2) There is only one hangout scheduled for tomorrow

Steps

1	Click the 'filter' icon	The filter is open
2	Click the 'Calendar' icon	The calendar is open
3	Select tomorrow's date and click the 'Save' button	The calendar is closed and tomorrow's date is in the 'From - To' field
4	Scroll down the 'Filter' form and click the 'Show results' button	The one hangout which is scheduled for tomorrow is shown

C98: Verify that the results of the search by the 'Time range' filter match the query

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) The Go2Meet home page is open

2) There is only one hangout that will be lasting from 10:00 to 12:00

Steps

1	Click the 'filter' icon	The filter is open
2	Scroll down the 'Filter' form	The 'Show results' button is visible
3	Fill in the 'From' field with the following data: 10:00, and click the 'To' field	An error message is not displayed
4	Fill in the 'From' field with the following data: 12:00, and click the 'Show results' button	The one hangout is shown
5	Check the hangout	The hangout will be lasting from 10:00 to 12:00

C99: Verify that the results of the search by the location filter match the query

Type	Priority	Estimate	References
Functional	Medium	None	None
Automation Type			
None			

Preconditions

OS: Windows 10 or higher
Browser: Google Chrome 110.0.5481.30 or higher

1) The Go2Meet home page is open

2) There is only one hangout with the 'Traktorobudivnykiv Ave, 59/56 Parking' location

Steps

1	Click the 'filter' icon	The filter is open
2	Fill in the 'Location' field with the following data: Traktorobudivnykiv Ave, 59/56 Parking	A dropdown list with the address is displayed under the 'Location' field
3	Select the option with the address	The 'Traktorobudivnykiv Ave, 59/56 Parking' address is set as the location
4	Scroll down the 'Filter' form and click the 'Show results' button	The one hangout with the 'Traktorobudivnykiv Ave, 59/56 Parking' address is shown

C100: Verify that the unavailable hangouts are not shown when the 'Only available' toggle is on
